

ATTENTION ALL CANDIDATES!

On October 14 I will vote for a candidate that supports a “made in Canada” energy strategy that puts Canadians in control of our energy resources.

89%

of Canadians agree that Canada should establish an energy policy that provides reliable supplies of oil, gas and electricity at stable prices and protects the environment, even if this means placing restrictions on exports and foreign ownership of Canadian supplies.

(Results according to an Environics Research Group poll conducted for the Council of Canadians April 7-10, 2008 of 1,007 respondents with a margin of error of +/-3.09 per cent 19 times out of 20.)

My vision, my vote
