Ms. Nadège Adam
Health Protection Campaigner
The Council of Canadians
502-151 rue Slater Street
Ottawa, ON K1P 5H3

Dear Ms. Adam:

In response to your letter dated May 24th, there is presently no segregation of GMO and non-GMO soybeans, corn and canola and therefore we assume there is some or all GMO in products with these ingredients.

Should any of your members wish to know the status of any individual item, they are welcome to contact our customer inquiry line (416) 967-2501 and they would be happy to outline the ingredients. However, we will not be releasing or publishing any type of full list of all our products at this time, as they are not currently in a format which allows us to do so.

Yours truly,

Geoff Wilson
Vice President, Industry
and Investor Relations
